LUX OPUS TEAM

BRINGING INDUSTRIAL SCALE TO THE HEMP SPACE

Leading the charge forward, our prominent associations have attained significant advancement in feasibly integrating sustainability into the financial, vocational, and environmental markets. Inspiring private and public sector partners with a genuine focus on sustainable societal benefit.

Economic crisis, deforestation, clean water accessibility, and pollution. Experience drives results to respond with scalable solution-driven leadership. Education first in feasibility to spawn scalable financial abilities, followed by vocational and quality of living implementation.

Blaine Hein – Innovative and Sustainable Product Development

Blaine has influenced the cannabis industry as an entrepreneur, chef, and product expert. While delivering the critical principles behind innovation, Blaine harnesses idea development according to an effective, transparent, and efficient process. Blaine has participated in the cannabis industry for over a decade in various roles ranging from entrepreneur, formulator, and top chef. Having experienced in the early stages of several leading companies, he brings valuable perspective and close relationships to Lux's efforts.

Blaine has owned, overseen, managed, designed, built, operated, and consulted extensively on large-scale commercial agriculture facilities in North America and abroad. In addition to leading Lux's sales efforts, Blaine has intimate knowledge of the medicinal side of the industry and provides formulations to those in need.
